

We live in the World, but we are not OF the world.

Each one must believe to see and start reaching out to see.

For we can't see unless we look.

Fanny Jan Crosby Blind from birth age 95 wrote lots of hymns.

It is not always easy to describe what God is showing us. But if we seek then He will give us the words.

Declaring the now vision of God. we present our Spiritual eyes to Him.

Share what little you see and you will receive more

If we declare our vision as we see it. God will give you a clearer vision.

Share what you see and let God make the rest clear.

God is Spirit.. and those who worship him must worship Him in Spirit.

Seeing into the needs of people will change the way you speak to people.

Lay aside your vision and ask God for His vision for your life!

What can we say about lightning? When it flashes it lights up the entire sky.

We percieve that something is happening even if dont see the entry flash

Other times we dont see it but we hear it. The thunder.

If we are looking in the right direction we see & hear it.

The Spirit wants us to turn our eyes in His direction so we catch the lightning

Make your self available for Him Don't worry if at first you can't see clearly

Have you ever noticed that you see things in your peripheral vision but not as clearly as you do when you are looking straight ahead at something? (Stroke in Hospital)

In the Spirit we must train ourselves to see in the peripheral of the Spirit. The not so obvious

Determine in your heart to search out the deeper things of God
